

GERMANS LOSE IN FIERCE ATTACKS

French Hold Firmly and Teutons Fail to Gain on Somme.

BRITISH FRONT IS INACTIVE

Bravest and Most Desperate Struggle of the War Brings Little Success to Kaiser's Men—Russians Win and Lose in the Carpathians.

London, Sept. 21.—The German army in the Somme sector, in what is described as the bravest and most desperate fighting it has done since the beginning of the war, made violent counterattacks against the French over a three-mile front in the region of the Priez farm and Bouchavesnes, north of the river.

It was the first great movement by the Germans since the Somme battle began, to retake the offensive and retrieve lost territory.

In mass formation the Teutons threw attack after attack along the line from 9 a. m. until dark. At the end of the day the French everywhere were holding their positions, Paris says, and the battlefield at points was covered with German dead.

During the fighting the Germans penetrated the northwestern part of the village of Bouchavesnes, but here the French met them with the bayonet and dislodged them.

Four assaults at the Priez farm, in which the Germans came on in waves, were repulsed in disorder, leaving many dead behind them.

No German report of the engagement has been issued yet.

British Front Inactive.

On the British front the inclement weather still holds the opposing sides to artillery duels.

In the Eastern theater, in Russia and Galicia, both Berlin and Vienna report the repulse of heavy Russian attacks in the Lutsk sector of Volhynia and southeast of Lemberg, in Galicia.

Local successes for the Russians in the Carpathians are conceded by the Teutonic allies, who say, however, that on the whole the Russian attack in this region were repulsed.

Down in Transylvania, where the Roumanians have been fighting against the Austro-Hungarians, the invaders apparently have met with a serious reverse in the region of Hatzeg where they have been driven back by the Teutonic allies to the Transylvanian Alps.

In Dobruja, where the Russians and Roumanians have been reinforced heavily along the line south of the Constanta railway from the Black sea to the Danube, the tide of the battle is fluctuating. Sofia reports successes for the arms of the Bulgars at certain points, while Bucharest claims a victory for the Roumanians near Enigean.

Retire on Monastir.

The western end of the Macedonian front is still the scene of violent combats. The Bulgarians, according to Athens, have hastily evacuated Vriltsa, at the extreme end of the line, and fallen back upon Svedra for a stand in previously prepared entrenchments which, if captured, will necessitate the evacuation of Monastir, Serbia.

Berlin reports that the Germans, who are co-operating with the Bulgars, have repulsed entente thrusts near Florina, Greece.

Aside from bombardments and isolated infantry attacks, the situation remains unchanged on the Carso front of the Austro-Italian theater, where the Italians are trying to reach Trieste.

Constantinople records successes for the Ottoman forces over the Russians and British, respectively, in Persia and along the Tigris.

KING HAakon.

Says Scandinavian Countries Will Remain Neutral.

King Haakon of Norway, speaking at a dinner given to the Swedish and Danish ministers of state in Christiania, declared the Scandinavian nations were united in their desire to remain neutral.

The dinner at which the king spoke was given in connection with a series of conferences being held at the Norwegian capital by the Scandinavian ministers of state.

DEMANDS RENEWAL OF SUBMARINE WARFARE

Berlin, Sept. 21.—Major Ernst Bassermann, leader of the National Liberal party, in a keynote speech delivered before his constituents in the Saarbrücken district, declared that the submarine campaign had been postponed and not abandoned. Major Bassermann advocated the widest possible use of both submarines and Zepplins and the most ruthless methods of warfare.

The National Liberal leader asserted his views were shared by Admiral von Tirpitz, Admiral von Koester, Prince von Buelow and Count Zeppelin. He maintained that "in a struggle wherein the existence of Germany is at stake the most ruthless use of all possible weapons is called for." This sentiment was heartily applauded by his audience. Submarines and Zepplins, continued Major Bassermann, were the most effective weapons against "our arch enemy, England."

He said it would be a delusion to believe there was any immediate prospect of an end of the war. On the contrary, he said, Germany was facing a more difficult war than had at first appeared possible, but nevertheless he saw no reason to doubt ultimate victory.

COMMERCIAL SPIRIT GRIPS ENGLISH FOLK

St. Paul, Sept. 21.—The mercenary spirit is even greater than the war spirit among the small trading class of England, according to Leslie Smith, a St. Cloud stockman, who has just returned from a two months' sojourn in England and Scotland, where he purchased sixty-one head of pure bred cattle.

"I found the small merchants making money and in no hurry for the war to end," he said. "They all believe that eventually the Allies will win, but seem to be rather unconcerned as to when."

Mr. Smith said that the bombs dropped by the Zepplins in their night raids do great damage, but that reports of the casualties are suppressed.

Just before sailing, he was told that an English warship had rounded up more than fifty Dutch fishing trawlers whose crews were charged with furnishing petrol and gasoline to German submarines.

RAIL MOTOR WRECK INJURES FOURTEEN

Mankato, Minn., Sept. 21.—Fourteen persons were injured when the west-bound gasoline motor car on the Chicago Great Western railway, left the track and plunged over a fifteen-foot embankment, several miles east of here.

Surgeons were hurried to the wreck in automobiles. On their arrival it was found none of the injuries would be fatal.

The wreck is thought to have been caused by spreading rails.

When the rescue party arrived the more seriously injured were removed to local hospitals.

New York, Sept. 21.—Rioting was renewed here in connection with the car strike, after efforts of Mayor Mitchell and others had failed during the day to effect a settlement of the differences. Several hundred strikers and their sympathizers, who attacked four surface cars, engaged in a running fight with police reserves. Many arrests were made.

What the police characterized as a conspiracy to use dynamite in the strike was frustrated by the arrest of a man who asserted he was a striking motorman. The prisoner is alleged to have declared he had sought explosives to "blow up" a couple of Broadway cars.

When Police Commissioner Woods was told that six-year-old Louis Dodel was dying, a victim of a brick hurler, he redoubled his efforts at clearing roof tops contiguous to the traction lines, and went into conference with District Attorney Swann to provide for the speedy punishment of such offenders.

AID FROM ABROAD IS TO BE SOUGHT

Washington, Sept. 21.—Nearly a million people have been made homeless in China by one of the greatest floods in fifty years. Reports to the state department telling of the disaster said an appeal for foreign aid would be made.

The state department issued the following statement:

"The department has received from the American consul at Nanking dispatches giving detailed information regarding recent extensive floods along the Hwai river in Anhui province.

"The flood extended throughout eight districts in northern Anhui. There are ten cities of considerable size in these eight districts with a total population estimated at from 800,000 to 1,000,000 people. The total population of the flooded region is approximately 2,500,000 people.

"While it is thought that comparatively few lives were lost, crops and personal property have been destroyed and there are thousands of destitute people nearly all of whom are now objects of charity. The supply of foodstuffs on hand will be inadequate to feed the people and practically all of the autumn crops in the eight districts have been entirely destroyed. Appeals for relief have come in from the various affected districts."

VILLA FORCE STORMS FOUR TOWNS IN DAY

Chihuahua City, Mex., Sept. 21.—Revolutionary attacks were made on Guadalupe, Tampico and Vera Cruz, simultaneously with Villa's Hidalgo day attack on this city, according to reports received here by General Jacinto B. Trevino.

Mrs. E. M. Larrabee, known to her many friends as "Grandma," has returned to her home in Superior, Wis., after a lengthy visit with her son and daughter-in-law, Mr. and Mrs. W. T. Larrabee.

Mr. and Mrs. Frank Hillman of 461 Mill street, are the parents of a baby daughter born Wednesday morning. Mother and baby are with her parents, Mr. and Mrs. Jerome Traflet, of Motley.

Hugh Breacon went to Duluth this afternoon, called there by the death of a child of his cousin, Ed Chambers. The funeral will be held Saturday. The Chambers girl, 6 years old, was run over by a truck.

Mrs. Amanda Moody, guest of her son and daughter-in-law, Mr. and Mrs. George W. Moody the past year, returned home on Thursday to Sheldon, N. D. She was accompanied as far as Staples by her granddaughter, Miss Ruth Moody.

Mrs. Jos. McVeety and two children, Dorothy and Elwood, arrived here Tuesday morning from Donnybrook, N. D., to visit at the home of her sister, Mrs. M. H. Krech. Mrs. McVeety will be better known to her friends here as Mabel Howe.

Boys have been found filling catch basins with sand and sticks. A stoppage in this manner caused \$50 damage to the Southeast Brainerd sewer near the Erickson greenhouses. Any more boys caught at this practice will be summarily dealt with and brought into municipal court.

The store, being vacated by Folsom Music Co. on Broadway, will be occupied by Sundberg & Son, who will remove their shoe shop to this location. 916p

A splendid set of 36 slides have been secured to illustrate the lecture on the life of St. Paul to be given by the Rev. H. G. Stacey at St. Paul's Episcopal church Sunday evening at 7:30 P. M. All interested in the lives of great men should attend and learn something about one of the greatest men who ever lived.

Charles A. Rose, of Duluth, was in Brainerd. His son, Raymond, of St. Paul, who has been engaged in the campaign against the white pine blaster rust in the vicinity of Taylor's Falls, has gone to New York from which place he will sail for Porto Rico. He will become assistant plant pathologist in the United States service. He is 26 years old and a graduate of the University of Minnesota.

Russia's National Anthem.
The Russian national anthem is the only national hymn which was adopted as such in open competition. Until the time of the Emperor Nicholas I, the English "God Save the King" had served Russia, but Nicholas determined to institute a genuine and native Russian anthem. He announced a competition, open to all musicians, for an original national hymn. A musical committee reduced the thousands of entries to two, and between these, the works of Glinka and Lvoff, the czar himself decided. The highly martial character, with the drums and trumpets, of Lvoff's composition won the imperial verdict, and it was decreed as hence forth the Russian national anthem.

Submerging a Submarine.
A submarine submerges by admitting water to various tanks, making it so heavy that it will not float. When it desires to rise powerful electric pumps empty these cylinders. Breathable air while submerged is insured by many cylinders containing compressed pure air or oxygen. In the latest submarines there is machinery to purify breathed air, the carbonic acid gas being absorbed from it by potash and the purified air being cooled and reoxygenated.

Accuracy.
"Has the line been busy?" asked the man with a nickel poised between his thumb and forefinger.
"No," answered the precise operator. "The line wasn't busy, but I was."—Washington Star.

Not the Same.
"What's the difference between admission to a picture show and admission to the penitentiary?"
"I give it up."
"One is 10 cents and the other is sentenced."—St. Louis Post-Dispatch.

FOR SALE—120 acres of good timber land 9 miles west of Pine River.

PLATTE LAKE

Mr. and Mrs. Sam Tough of Ft. Ripley, were visitors at Milt Gorton's Wednesday and Thursday.

Frank Walker and Rev. Sholtz motored to Brainerd Friday to bring out four pastors who are assisting Rev. Sholtz in holding the harvest festival which is to be held at Rev. Sholtz's residence next Sunday. The wife of one of the pastors and two children came also.

Frank Walker is around buying up cattle so as to ship a car to St. Paul.

Mr. and Mrs. McNeely of Potlatch, Idaho, were visitors at Milt Gorton's Wednesday and Thursday. It has been 20 years since they were here, when they lived here.

Miss Leona Fleischer returned from Minneapolis Friday.

Frank Agnes and Myrtle Fleischer were in town on business Saturday. The new pastors that were here spoke splendid sermons which everybody enjoyed. There was a nice crowd, although it was very cold.

Mrs. John Jostin of the Sisters hospital, is reported a little better.

Mrs. Charley Fleischer of Flak, is visiting Herman Fleischer's.

Mrs. Rob Stinson is visiting her sister, Grace Narveson.

Herman Fleischer was in town on Saturday.

Frank Walker had a very narrow escape from a collision with a skunk on Saturday with his new car.

Mrs. Narveson and two children are visiting her daughter of Paynesville.

Charley and Ben Olson and George Kneer were callers at Gorton's Sunday evening.

School started Monday with Miss Laura Young as teacher.

Mr. Layton who has been staying at Guy Gorton's, is now away on an extended visit. Hope to see his return soon.

Mr. Wilkerman is building a new addition to his house.

Mr. and Mrs. Milt Gorton and Mr. and Mrs. Guy Gorton motored to Byron Gates' Sunday and spent a very pleasant evening.

Threshing is pretty well done around these parts.

Ray and May Gorton and Ludwig Nesheim took supper at Fleischer's Sunday.

Haying is still in progress in these parts, but slow.

There is a man around these parts selling monuments and tomb stones. If time keeps going we will soon all need one.

"RAIN."

A Splendid Pose.

"How would you like to be the captain of a submarine liner?"

"The idea doesn't appeal to me at all," answered the man who is fond of display.

"Well, why not?"

"For me half the fun of being the captain of an ocean liner would be to stand on the bridge and sweep the sea with my glasses in full view of hundreds of admiring passengers scattered about on the upper deck."—Birmingham Age-Herald.

Elderdown is one of the poorest conductors of heat, hence its use as a bed covering.

Russia's National Anthem.

The Russian national anthem is the
only national hymn which was adopted
as such in open competition. Until the
time of the Emperor Nicholas I, the
Emperor "God Save the King" had served
Russia, but Nicholas determined to
institute a genuine and native Russian
anthem. He announced a competition,
open to all musicians, for an original
national hymn. A musical committee
received the thousands of entries to
two, and between these, the works of
Glinka and Loeff, the czar himself de-
cided. The highly martial character,
with the drums and trumpets, of
Loeff's composition won the imperial
verdict, and it was decreed as hence-
forth the Russian national anthem.

Submerging a Submarine.

A submarine submerges by admit-
ting water to various tanks, making it
so heavy that it will not float. When
it desires to rise powerful electric
pumps empty these cylinders. Breath-
able air while submerged is insured
by many cylinders containing com-
pressed pure air or oxygen. In the lat-
est submarines there is machinery to
purify breathed air, the carbonic acid
gas being absorbed from it by potash
and the purified air being cooled and
reoxigenated.

Accuracy.

"No," answered the precise operator.
"The line wasn't busy, but I was."

Misery in Back, Headache and Pain in Limbs.

Dear Mr. Editor—For more than a year I suffered with misery in the back, dull headache, pain in the limbs, was somewhat constipated and slept poorly at night until I was about ready to collapse. Seeing an account of the wonderful qualities of "Anurio," prepared by Doctor Pierce, of Buffalo, N. Y., I sent for a box, and before using the whole box I felt and still feel improved. My sleep is refreshing, misery reduced, and life is not the drag it was before. I most cheerfully recommend this remedy to sufferers from like ailments.

Yours truly, W. A. ROBERTS.

NOTE: You've all undoubtedly heard of the famous Dr. Pierce and his well-known medicines. Well, this prescription is one that has been successfully used for many years by the physicians and specialists of Dr. Pierce's Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for kidney complaints, and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine, and urinary troubles.

Up to this time, "Anurio" has not been on sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing Tablet, Dr. Pierce has finally decided to put it into the drug stores of this country within immediate reach of all sufferers.

I know of one or two leading druggists in town who have managed to procure a supply of "Anurio" for their anxious customers in and around this locality. If not obtainable send one time by mail to Dr. Pierce for trial package or 50 cents for full treatment.

LAYMEN'S GOSPEL LEAGUE

Missionary Welliver of Mildred Will speak at the Y. M. C. A. Meeting

(Contributed)

Missionary Welliver of Mildred, will address the Laymen's Gospel League at a special meeting on Friday evening at the Y. M. C. A. The purpose of the meeting is to further consider a plan of Bible instruction for members of the league.

There are certain fundamental truths of the scriptures, that many Christian workers fail to grasp in full. There are innumerable facts in the word of God, of which, through lack of a systematic, intelligent study, the average Bible students remain ignorant.

There are ways and means by which any consecrated follower of Christ may get better acquainted with the message. It is proposed that Rev. Welliver conduct a class of members of the Laymen's Gospel League in a study that will make them more efficient Christians.

Rev. Welliver has for many years been a missionary in Morocco. He has made an intensive study of the Bible, and has assisted in translating it into other languages. He has preached in Brainerd several times, and has made a host of friends. His entire circle of acquaintanceship will unhesitatingly testify to his splendid knowledge of the Bible and his complete capability in conducting this class with results.

There is the need for a broader and deeper knowledge of scriptural truths; there is the opportunity right at hand to get some of it; then why not come out to the meeting Friday night?

It is desired that every member of the league, as well as any other Christian laymen similarly interested, make use of this golden opportunity for an uplifting course of study.

Books for the Asking

Are you making use of the State Free Traveling Libraries?

A book or books may be had on request and by paying postage or freight on the same. The cheap rates now offered by parcel post make books accessible to all.

These loans are made in two ways—special loans of one or two books, which may be kept for two weeks or one month on payment of postage both ways. Traveling Library loans of 25 to 50 volumes which may be kept for six months on payment of 50c or \$1 respectively to cover transportation charges.

Do you need a package library for debates? A club library for your women's clubs? An agricultural library for your farmers' clubs? A general foreign language, children's or teachers' library for your town? Do you want information which can be supplied by a book or magazine article?

If so, address your state department, Minnesota Public Library Commission, the Capitol, St. Paul, Minn.

Everybody Is Sentimental.

The truth is that we are all sentimental at heart, whatever our culture, says Robert M. Gay in the Atlantic Monthly. Even though we appreciate Brahms, shall we not find some pleasure in the repertory of the hand organ, and, though we admire Botticelli, shall we utterly condemn "Daisy and Joan"? There are moods in which Jean Ingelow and Mrs. Hemans are not mawkish. The thousands still weep over the death of Little Nell, though the critics sneer.

It is estimated that the annual loss to agriculture in this country from the depredations of insects and rodents is \$10,000,000,000—about \$1 a month for every man, woman and child in the United States.

TRUTH.

Seek truth wherever and whenever it can be found. We must never throw away a bushel of truth because it happens to contain a few grains of chaff. On the contrary, we may sometimes profitably receive a bushel of chaff for the few grains of truth it may contain.—Dean Stanley.

If your answer is the best you will receive \$100.00. If you have equipped your Ford with Hassler Shock Absorbers since June 1, 1916, you will receive \$100.00 extra or \$200.00 in all. But remember, you do not have to buy Hassler Shock Absorbers to enter the contest. The only condition is that you own a Ford or are a member of a family that owns one.

Go to your local Hassler dealer at once. Have him show you the Hassler Shock Absorber for Ford Cars and explain to you how they would make your Ford easier-riding than any car costing \$2000.00 or less, how they would make it safer to drive and easier to steer and how they would cut your maintenance cost a third. Let him take you out in his Ford so you can feel the difference. Ask about our absolute guarantee and 10-day trial offer. Then you will find it easy to tell us why every Ford should be equipped with Hassler Shock Absorbers.

All answers must be mailed not later than midnight, September 30, 1916. If the same prize-winning answer is sent by more than one person, the contestant sending his answer first will receive the higher award. EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

Books for the Asking

Are you making use of the State Free Traveling Libraries?

A book or books may be had on request and by paying postage or freight on the same. The cheap rates now offered by parcel post make books accessible to all.

These loans are made in two ways—special loans of one or two books, which may be kept for two weeks or one month on payment of postage both ways. Traveling library loans of 25 to 50 volumes which may be kept for six months on payment of 50c or \$1 respectively to cover transportation charges.

Do you need a package library for debates? A club library for your women's clubs? An agricultural library for your farmers' clubs? A general foreign language, children's or teachers' library for your town? Do you want information which can be supplied by a book or magazine article?

If so, address your state department, Minnesota Public Library Commission, the Capitol, St. Paul, Minn.

Everybody Is Sentimental.

The truth is that we are all sentimental at heart, whatever our culture, says Robert M. Gay in the Atlantic Monthly. Even though we appreciate Brahms, shall we not find some pleasure in the repository of the hand organ, and, though we admire Botticelli, shall we utterly condemn "Daisy and Joan"? There are moods in which Jean Ingelow and Mrs. Hemans are not mawkish. The thousands still weep over the death of Little Nell, though the critics sneer.

It is estimated that the annual loss to agriculture in this country from the depredations of insects and rodents is \$10,000,000,000—about \$1 a month for every man, woman and child in the United States.

TRUTH.

Seek truth wherever and whenever it can be found. We must never throw away a bushel of truth because it happens to contain a few grains of chaff. On the contrary, we may sometimes profitably receive a bushel of chaff for the few grains of truth it may contain.—Dean Stanley.

EACH of these prizes to be doubled if the winner has bought a set of Hassler Shock Absorbers since June 1, 1916, making a total of \$500.00

Tell us in 25 words or less why every Ford Car should be equipped with the

HASSLER

Shock Absorber for Ford Cars

If your answer is the best you will receive \$100.00. If you have equipped your Ford with Hassler Shock Absorbers since June 1, 1916, you will receive \$100.00 extra or \$200.00 in all. But remember, you do not have to buy Hassler Shock Absorbers to enter the contest. The only condition is that you own a Ford or are a member of a family that owns one.

Go to your local Hassler dealer at once. Have him show you the Hassler Shock Absorber for Ford Cars and explain to you how they would make your Ford easier-riding than any car costing \$2000.00 or less, how they would make it safer to drive and easier to steer and how they would cut your maintenance cost a third. Let him take you out in his Ford so you can feel the difference. Ask about our absolute guarantee and 10-day trial offer. Then you will find it easy to tell us why every Ford should be equipped with Hassler Shock Absorbers.

All answers must be mailed not later than midnight, September 30, 1916. If the same prize-winning answer is sent by more than one person, the contestant sending his answer first will receive the higher award. Awards will be made by the following committee: President Indianapolis Chamber of Commerce, President Indianapolis Advertisers Club, Advertising Manager Indianapolis Star.

Ask the dealer named below for contest circular, answer blank and descriptive folder.

EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four-ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

BIGGEST AUCTION SALE IN COUNTY

To be Held Thursday, September 28, at the L. J. Alberts Farm on the Oak Street Road

FINE LOT OF HOLSTEIN CATTLE

H. C. Zierke is the Auctioneer, John A. Oberg of Deerwood, Will be the Clerk

What is believed by many to be the biggest farm auction sale in the history of the county will be held on Thursday, September 28, commencing 10 A. M., at the L. J. Alberts farm situated four miles east of Brainerd on the Oak street road, or eight miles west and eight miles south of Deerwood, in section 26, township 45, range 30.

Mr. Alberts is a keen buyer and his herd of Holstein compares favorably with any in the county. They are all for sale. Included in the list of cattle are 15 milch cows coming in this fall, 5 Holstein heifers coming in soon, 10 steers from 2 to 4 years, 20 Holstein heifers from 1 to 2 years, 25 heifers and steers from 8 months to 1 year old.

There are 20 head of good horses and farm machinery, etc. The usual lunch will be served at noon. Terms are liberal. On sums of \$10 and under cash is required. For sums over \$10, 3 percent off for cash, or 6 months time on bankable paper without interest if paid at maturity. If not, then 10 percent interest is charged.

H. C. Zierke is the auctioneer and County Commissioner John A. Oberg of Deerwood, is the clerk at the sale.

His Job Was to Holler "Hoola Boola"

(By United Press)

London, Sept. 21.—Investigation today of the German charge that "black savages" were aiding the English in fighting on the western front disclosed that one very large, black, fierce looking "savage," a British citizen hailing from London, was instructed to put his woolly head over the parapet twenty times a day in twenty different places for twenty days, yelling on each occasion "Hoola Boola" or something like that. Naturally the Germans thought they were opposing a horde of savages. And all the time the horde was scared stiff that he was going to get his head shot off.

Bridges in Korea.

Some idea of the delights of traveling in Korea is given by the following description by a traveler of the "bridges" in that country:

A first class bridge in Korea is simply an assortment of planks nailed together. These are scarce.

A second class bridge is a series of isolated stones, from one to another of which the visitor may jump.

A third class bridge, much the commonest variety, is invisible, its position being indicated by a couple of posts, one on each side of the river. They mean that you may safely wade across, as the water will probably not go much over your chest.

Frivolous, Gilded Youths are Barred

(By United Press)

Palo Alto, Calif., Sept. 21.—Wealth is a handicap to the college student and the poor boy has the advantage, according to Dr. Ray Lyman Wilbur, president of Leland Stanford University, in a statement today.

As a consequence of this belief, Dr. Wilbur decreed that beginning this year autos may not be owned by students; that too frequent dances, the purchase of expensive flowers for coeds and similar luxuries will be barred.

Dr. Wilbur is so convinced he is right about this that he has sent a circular to students' parents saying students with too much money are not desired at the school, if they are inclined to spend their time in the pursuit of pleasure.

The letter urges parents to refrain from too liberal allowances and warns them that as the number of entrants this year is limited, those students who fail to show they are doing honest work will not be permitted to remain.

Stanford does not particularly seek poor boys and discourage the entrance of the wealthy, Dr. Wilbur explains, but experience has shown that the poor boy has, on the whole, made a better record, both as a student and afterwards. His appeal, Dr. Wilbur says, is an endeavor to save the wealthy lad from his own particular dangers.

"It takes time to run an automobile and it often leads to life off the campus, to extravagance and much foolishness," says the letter, adding: "There is plenty to do in the way of variety right at the university, with its swimming pools, athletic fields, gymnasiums, beautiful walks and the like. There is no need to go to San Francisco more than once or twice a semester and this trip can be conveniently and cheaply made by train. There is no need to supply money for orchids, for dance parties or for taxi hire.

"The student who cannot be content to lead the clean, simple, industrious life expected on the Stanford campus should go elsewhere. If you do not feel our idea of student self government is right and if you do not feel that it expresses the right attitude toward alcohol, hazing, self control, payment of debts and things of that sort, it would be better to keep your son or daughter at home, or send them elsewhere. It will save them the trouble that is almost sure to come sometime in a four year course and will give the university more time to develop those who have the disposition to conform."

Hibbing Expenses Being Investigated

Hibbing, Minn., Sept. 21.—Just \$111 was spent by this village in village administration in the year just closed. Steel corporations pay 93 percent of the taxes here and the residents simply don't like steel corporation. Over 10,000 persons live in the village kept that for easier municipal administration. In March 1915, 75 percent of the registered voters were on the village payroll, in some capacity.

Reckless extravagance, shortage, overcharge, aggregating \$62,000 in five years and apparent indifference to cost, are charged today, in a report to Governor Burnquist on the village finances. Total discrepancies amounting to \$110,250, are alleged, and nobody but the steel companies balked. Hibbing newspapers are alleged to have collected \$25,000 on overcharges and duplicate bills. Village officials sold the village supplies and failed to deliver. Village officials charged \$1,850.40 worth of personal campaign printing to the city as "ballots." Every policeman in the village was furnished a residence telephone at the village expense, and every street and half the alleys were lighted by an expensive boulevard system.

WEAK SPOTS IN RETALIATORY ACT

Diplomats Convinced Part of It Is Unenforceable.

ATTACH DOUBT TO LEGALITY

Claim Remainder Is Too Broad and Hold Penalty Is Illegal—Officials Refuse to Commit Themselves. Lansing Is Silent.

Washington, Sept. 21.—Intensive study of the retaliatory legislation passed in the last hours of congress has convinced allied diplomats and some state department officials that part of the legislation is unenforceable, part is of doubtful legality and the remainder is so broad that only the most careful administration will prevent entirely unforeseen complications.

While Secretary Lansing declined to indicate what conclusions he had reached regarding legal features of the retaliatory measures and pointed out that the powers they conferred on the president were for use only as a last resort, it was apparent that some uncertainty had developed over the manner in which provisions for refusing clearance to ships discriminating against American goods and for laying retaliatory trade embargoes could be put into effect.

Way to Evade Law.

One allied diplomat declared the practice of letting out cargo space on time charter would relieve a large percentage of allied shipowners from any possibility of their ships being held up, and that any attempt to detain a ship for refusal to accept American goods would be in violation of treaty agreements.

The section specifically authorizing import embargoes against belligerents which restrict their imports could not be used at all, he declared, because the right of a belligerent to limit its own imports never had been questioned; while there would be many obstacles to enforcement of a similar section authorizing embargoes against belligerents interfering with the trade between neutrals.

Asked specifically about these strictures, state department officials said they were not willing to admit the validity of the contentions advanced. They have not yet finished their examination of the legislation.

Penalty Held Illegal.

At the allied embassies it also is pointed out that the president, in the case of an offending ship, "may direct the detention of such vessels by withholding clearance or by formal notice forbidding departure." Allied legal experts declare this penalty is illegal, as under all American commercial treaties ships that have been admitted to American harbors must be permitted to leave.

No definite course probably will be decided on by the state department until receipt of the mail seizures note, promised this week, and of the forthcoming blacklist note.

Officials have been gratified by a more considerate attitude on England's part lately.

U. S. WAR CHARITY PUT AT \$28,896,277

Washington, Sept. 21.—Americans' gift to the sixty principal war relief societies are estimated at \$28,896,277.36 by the new year book of the Carnegie Endowment for International Peace being distributed here.

The largest personal contribution is given as a million dollars, while many people are reported to have set aside a percentage of their incomes. The total gifts represent about one-twentieth of the \$600,000,000 spent here by the allies alone on specific war munitions.

Goes to Prison Alone.

Missoula, Mont., Sept. 21.—When Foster Stryker, seventeen years old, was sentenced here to the state reformatory school at Miles City for incorrigibility the boy asked if he might be permitted to go unaccompanied. He was given the commitment papers and reported in due time at the school, according to word received from Miles City by Probation Officer Hoblitt.

Two Girls Plunge to Death.

Madison, Wis., Sept. 21.—Two sixteen-year-old girls plunged to death in an automobile east of the city. They were Gladys Brevard and Olive Obegard. The car, driven by Miss Obegard, got beyond control and plunged over a bridge. The machine caught fire. The bodies of the two girls were badly burned.

Believe Youth Robbed Bank.

San Francisco, Sept. 21.—Edward von Walden, the Cincinnati youth in jail as the result of a daylight robbery of a local bank, is suspected of a similar holdup in Omaha, Aug. 5, when a branch bank lost \$833, according to telegrams received from the Omaha authorities.

IN BATTLE WITH OFFICERS

Florida Bandits Trapped; Two Are Believed Killed.

Miami, Fla., Sept. 21.—The sheriff's posse pursuing the four bandits who robbed the State bank of Homestead, Fla., of \$6,000 last Saturday surrounded two of the robbers on Key Largo, a small island on the coast, and exchanged rifle shots with them.

The discovery of blood stained clothing in the boat in which the bandits escaped after the robbery led to the belief that one or more of them may have been wounded. The fact that only two were seen gave rise to the belief that the other two may have been killed.

Entire Business Section Burned.

Erie, Mich., Sept. 21.—Nine stores, ten houses and a score of sheds were destroyed by fire here. Fire apparatus sent from Toledo, O., twelve miles south, assisted the fire department of Monroe. The store buildings destroyed comprised virtually the entire business section of the town.

Five Men Killed in Blast.

Huntington, Pa., Sept. 21.—Five men were killed and at least one was seriously injured when an explosion wrecked part of the plant of the Aetna Chemical company at Mount Union, near here.

Railroad Worker Killed.

Albert Lea, Minn., Sept. 21.—Arthur Hill, thirty-one years old, foreman of the switching crew at the local Rock Island railroad yards, was instantly killed when crushed between two box cars.

Lynched for Attack on Girl.

Lafayette, Ga., Sept. 21.—Henry White, a negro, was lynched at Durham, Ga., a village near here, after he had confessed he attacked a white girl.

LOSING INTEREST IN PANAMA CANAL

People Apparently Forgetting Great Engineering Marvel.

OLLIE JAMES, THE OPTIMIST

Kentucky Senator Sees Wilson Victory in Maine Election—"Shingle Bill" Will Not Return to Washington. Frank Lowden's Friends Hope For His Election in Illinois.

By ARTHUR W. DUNN.

Washington, Sept. 23.—[Special.]—The gratifying announcement was recently made that the Panama canal had done more business in the month of July than at any time in its history.

In some way the American people do not seem much interested in the canal, at least in comparison with what they showed previous to its construction and while the work was in progress. "The joy of incompleteness" seems to prevail among nations as well as among children. When a work is under way it attracts a great deal of attention, but when it is completed there is a loss of interest.

Is It Completed?

Of course there is a question as to whether the canal is actually completed, although the formal announcement of that fact was made quite a long time ago. The canal was completed and formally opened, and many distinguished people took part in the ceremonies. Several battleships went through the canal, and many merchant ships made use of it.

Then came a period of slides, and they have been more than periodic. Dredging the channel has been continuous, but so far the second opening has not been announced. The second completion of the canal has not been scheduled.

Meanwhile we have bought another canal route. In case, so our officials have said, the Panama canal is a failure we will have another canal at Nicaragua.

Ollie the Optimist.

There was an Optimist club formed in Washington not long ago, and a few days later Senator Ollie James appeared in an interview on the Maine election which showed that he must have been one of the founders of the organization. After assembling the figures of the election in 1912 and those of 1916 and making comparisons the Kentucky senator concluded:

"It would certainly indicate that the president really won a victory in Maine." To a man who feels that way about the result one can only say that he ought to live in a pleasant frame of mind most of the time.

Charlie Commends Champ.

Former Congressman Charlie Landis used to be on the lecture circuit with Champ Clark, and they were warm friends. Tarrying in Washington for a day or two, Landis praised Champ's Maine election comment when the speaker said, "We got licked good and plenty."

"That's just like Champ," remarked Landis—"always candid, blunt and outspoken, with no desire to deceive himself."

Landis represented an Indiana district in congress some years ago, and he feels sure that Indiana is going Republican. Taking Tom Taggart's prediction of 50,000 Democratic majority, Landis says that the record will be Republican.

No More of "Shingle Bill."

Congress will lose "Shingle Bill," as the Democrats called William E. Humphrey of Washington. Humphrey ran for senator, and Polindexter defeated him in the primaries. One thing the primary system does is to have all candidates run at the same time, and a man cannot be a candidate for the senate and, losing out, run for his old place in the house. Humphrey concluded to try for the senate and has lost his seat in the house.

They called him "Shingle Bill," or "Shingles," because he was forever talking about the removal of the tariff on shingles and complaining that great damage had been done to Washington on that account. Strange as it may seem, Polindexter voted for the Underwood tariff bill, and yet he won. It is due to the strong progressive tendencies in Washington. Polindexter was an out and out bull moose four years ago. The house therefore has heard the last of the depressing effect of the tariff removal upon the shingle industry of the state of Washington.

The Record Keeper.

When the future historian wants to know the facts of the present time he will find the speeches of Simeon D. Fess of Ohio of great use. Fess makes it a point to keep the records straight on many of the great questions of the day. No doubt they are a bit partisan, for he is a strong Republican, but his records are official.

Frank Lowden's Friends Pleased.

Frank Lowden served quite a long time in congress and made many friends in Washington, who rejoice over his success in the Illinois primaries. They are hoping that he will be elected governor of that state. Lowden retired from congress voluntarily and for years has been devoting his time to his stock farm, with politics on the side.

Glacier Ice.

Glacier ice is not like the solid blue ice on the surface of the water, but consists of granules joined together by an intricate network of capillary water filled fissures. In exposed sections and upon the surface of the ice can be observed "valued" or "banded" structure veins of a denser blue color alternating with those of a lighter shade containing air bubbles. The cause of this peculiar structure has been the subject of much theorizing among investigators, but the greatest authorities consider that the explanation is yet wanting.

BIGGEST AUCTION SALE IN COUNTY

To be Held Thursday, September 29, at the L. J. Alberts Farm on the Oak Street Road

FINE LOT OF HOLSTEIN CATTLE

H. C. Zierke is the Auctioneer, John A. Oberg of Deerwood, Will be the Clerk

What is believed by many to be the biggest farm auction sale in the history of the county will be held on Thursday, September 28, commencing 10 A. M., at the L. J. Alberts farm situated four miles east of Brainerd on the Oak street road, or eight miles west and eight miles south of Deerwood, in section 26, township 45, range 30.

Mr. Alberts is a keen buyer and his herd of Holstein compares favorably with any in the county. They are all for sale. Included in the list of cattle are 15 Holstein cows coming in this fall, 5 Holstein heifers coming in soon, 10 steers from 2 to 4 years, 20 Holstein heifers from 1 to 2 years, 25 heifers and steers from 3 months to 1 year old.

There are 20 head of good horses and farm machinery, etc. The usual lunch will be served at noon. Terms are liberal. On sums of \$10 and under cash is required. For sums over \$10, 3 percent off for cash, or 6 months time on bankable paper without interest if paid at maturity. If not, then 10 percent interest is charged.

H. C. Zierke is the auctioneer and County Commissioner John A. Oberg of Deerwood, is the clerk at the sale.

His Job Was to Holler "Hoola Boola"

(By United Press)

London, Sept. 21.—Investigation today of the German charge that "black savages" were aiding the English in fighting on the western front disclosed that one very large, black, fierce looking "savage," a British citizen hailing from London, was instructed to put his woolly head over the parapet twenty times a day in twenty different places for twenty days, yelling on each occasion "Hoola Boola" or something like that. Naturally the Germans thought they were opposing a horde of savages. And all the time the horde was scared stiff that he was going to get his head shot off.

Bridges in Korea.

Some idea of the delights of traveling in Korea is given by the following description by a traveler of the "Bridges" in that country:

A first class bridge in Korea is simply an assortment of planks nailed together. These are scarce.

A second class bridge is a series of isolated stones, from one to another of which the visitor may jump.

A third class bridge, much the commonest variety, is invisible, its position being indicated by a couple of posts, one on each side of the river. They mean that you may safely wade across, as the water will probably not go much over your chest.

Zinc for Small Coins.

Zurich, Switzerland, Sept. 21.—The Tagliche Rundschau of Berlin says the government of Luxembourg has decided to mint 200,000 francs in small coins from zinc owing to the lack of copper change.

Frivolous, Gilded Youths are Barred

(By United Press)

Palo Alto, Calif., Sept. 21.—Wealth is a handicap to the college student and the poor boy has the advantage, according to Dr. Ray Lyman Wilbur, president of Leland Stanford University, in a statement today.

As a consequence of this belief, Dr. Wilbur decreed that beginning this year autos may not be owned by students; that too frequent dances, the purchase of expensive flowers for coeds and similar luxuries will be barred.

Dr. Wilbur is so convinced he is right about this that he has sent a circular to students' parents saying students with too much money are not desired at the school, if they are inclined to spend their time in the pursuit of pleasure.

The letter urges parents to refrain from too liberal allowances and warns them that as the number of entrants this year is limited, those students who fail to show they are doing honest work will not be permitted to remain.

Stanford does not particularly seek poor boys and discourage the entrance of the wealthy, Dr. Wilbur explains, but experience has shown that the poor boy has, on the whole, made a better record, both as a student and afterwards. His appeal, Dr. Wilbur says, is an endeavor to save the wealthy had from his own particular dangers.

"It takes time to run an automobile and it often leads to life off the campus, to extravagance and much foolishness," says the letter, adding, "There is plenty to do in the way of variety right at the university, with its swimming pools, athletic fields, gymnasiums, beautiful walks and the like. There is no need to go to San Francisco more than once or twice a semester and this trip can be conveniently and cheaply made by train. There is no need to supply money for orchids, for dance parties or for taxi hire.

"The student who cannot be content to lead the clean, simple, industrious life expected on the Stanford campus should go elsewhere. If you do not feel our idea of student self government is right and if you do not feel that it expresses the right attitude toward alcohol, hazing, self control, payment of debts and things of that sort, it would be better to keep your son or daughter at home, or send them elsewhere. It will save them the trouble that is almost sure to come sometime. In a four year course and will give the university more time to develop those who have the disposition to conform."

Hibbing Expenses Being Investigated

Hibbing, Minn., Sept. 21.—Just \$111 was spent by this village in village administration in the year just closed. Steel corporations pay 93 percent of the taxes here and the residents simply don't like steel corporation. Over 10,000 persons live in the village kept that for easier municipal administration. In March 1915, 75 percent of the registered voters were on the village payroll, in some capacity.

Reckless extravagance, shortage, overcharge, aggregating \$62,000 in five years and apparent indifference to cost, are charged today, in a report to Governor Burnquist on the village finances. Total discrepancies amounting to \$110,250, are alleged, and nobody but the steel companies balked. Hibbing newspapers are alleged to have collected \$25,000 on overcharges and duplicate bills. Village officials sold the village supplies and charged \$1,850.49 worth of personal campaign printing to the city as "ballots." Every policeman in the village was furnished a residence telephone at the village expense, and every street and half th alleys were lighted by an expensive boulevard system.

WEAK SPOTS IN RETALIATORY ACT

Diplomats Convinced Part of It Is Unenforceable.

ATTACH DOUBT TO LEGALITY

Claim Remains Is Too Broad and Hold Penalty Is Illegal—Officials Refuse to Commit Themselves. Lansing Is Silent.

Washington, Sept. 21.—Intensive study of the retaliatory legislation passed in the last hours of congress has convinced allied diplomats and some state department officials that part of the legislation is unenforceable, part is of doubtful legality and the remainder is so broad that only the most careful administration will prevent entirely unforeseen complications.

While Secretary Lansing declined to indicate what conclusions he had reached regarding legal features of the retaliatory measures and pointed out that the powers they conferred on the president were for use only as a last resort, it was apparent that some uncertainty had developed over the manner in which provisions for refusing clearance to ships discriminating against American goods and for laying retaliatory trade embargoes could be put into effect.

Way to Evade Law.

One allied diplomat declared the practice of letting out cargo space on time charter would relieve a large percentage of allied shipowners from any possibility of their ships being held up, and that any attempt to detain a ship for refusal to accept American goods would be in violation of treaty agreements.

The section specifically authorizing import embargoes against belligerents which restrict their imports could not be used at all, he declared, because the right of a belligerent to limit its own imports never had been questioned; while there would be many obstacles to enforcement of a similar section authorizing embargoes against belligerents interfering with the trade between neutrals.

Asked specifically about these strictures, state department officials said they were not willing to admit the validity of the contentions advanced. They have not yet finished their examination of the legislation.

Penalty Held Illegal.

At the allied embassies it also is pointed out that the president, in the case of an offending ship, "may direct the detention of such vessels by withholding clearance or by formal notice forbidding departure." Allied legal experts declare this penalty is illegal, as under all American commercial treaties ships that have been admitted to American harbors must be permitted to leave.

No definite course probably will be decided on by the state department until receipt of the mail seizures note, promised this week, and of the forthcoming blacklist note.

Officials have been gratified by a more considerate attitude on England's part lately.

U. S. WAR CHARITY PUT AT \$28,896,277

Washington, Sept. 21.—Americans' gift to the sixty principal war relief societies are estimated at \$28,896,277 by the new year book of the Carnegie Endowment for International Peace being distributed here.

The largest personal contribution is given as a million dollars, while many people are reported to have set aside a percentage of their incomes. The total gifts represent about one-twentieth of the \$600,000,000 spent here by the allies alone on specific war munitions.

Goes to Prison Alone.

Missoula, Mont., Sept. 21.—When Foster Stryker, seventeen years old, was sentenced here to the state reformatory school at Miles City for incorrigibility the boy asked if he might be permitted to go unaccompanied. He was given the commitment papers and reported in due time at the school, according to word received from Miles City by Probation Officer Hoblitt.

Two Girls Plunge to Death.

Madison, Wis., Sept. 21.—Two sixteen-year-old girls plunged to death in an automobile east of the city. They were Gladys Brevard and Olive Obegard. The car, driven by Miss Obegard, got beyond control and plunged over a bridge. The machine caught fire. The bodies of the two girls were badly burned.

Believe Youth Robbed Bank.

San Francisco, Sept. 21.—Edward von Walden, the Cincinnati youth in jail as the result of a daylight robbery of a local bank, is suspected of a similar holdup in Omaha, Aug. 5, when a branch bank lost \$33, according to telegrams received from the Omaha authorities.

IN BATTLE WITH OFFICERS

Florida Bandits Trapped; Two Are Believed Killed.

Miami, Fla., Sept. 21.—The sheriff's posse pursuing the four bandits who robbed the State bank of Homestead, Fla., of \$6,000 last Saturday surrounded two of the robbers on Key Largo, a small island on the coast, and exchanged rifle shots with them.

The discovery of blood stained clothing in the boat in which the bandits escaped after the robbery led to the belief that one or more of them may have been wounded. The fact that only two were seen gave rise to the belief that the other two may have been killed.

Entire Business Section Burned.

Erie, Mich., Sept. 21.—Nine stores, ten houses and a score of sheds were destroyed by fire here. Fire apparatus sent from Toledo, O., twelve miles south, assisted the fire department of Monroe. The store buildings destroyed comprised virtually the entire business section of the town.

Five Men Killed in Blast.

Huntington, Pa., Sept. 21.—Five men were killed and at least one was seriously injured when an explosion wrecked part of the plant of the Aetna Chemical company at Mount Union, near here.

Railroad Worker Killed.

Albert Lea, Minn., Sept. 21.—Arthur Hill, thirty-one years old, foreman of the switching crew at the local Rock Island railroad yards, was instantly killed when crushed between two box cars.

Lynched for Attack on Girl.

Lafayette, Ga., Sept. 21.—Henry White, a negro, was lynched at Durham, Ga., a village near here, after he had confessed he attacked a white girl.

LOSING INTEREST IN PANAMA CANAL

People Apparently Forgetting Great Engineering Marvel.

OLLIE JAMES, THE OPTIMIST

Kentucky Senator Sees Wilson Victory in Maine Election—"Shingle Bill" Will Not Return to Washington. Frank Lowden's Friends Hope For His Election in Illinois.

By ARTHUR W. DUNN.

Washington, Sept. 23.—[Special.]—The gratifying announcement was recently made that the Panama canal had done more business in the month of July than at any time in its history.

In some way the American people do not seem much interested in the canal, at least in comparison with what they showed previous to its construction and while the work was in progress. "The joy of incompleteness" seems to prevail among nations as well as among children. When a work is under way it attracts a great deal of attention, but when it is completed there is a loss of interest.

Is It Completed?

Of course there is a question as to whether the canal is actually completed, although the formal announcement of that fact was made quite a long time ago. The canal was completed and formally opened, and many distinguished people took part in the ceremonies. Several battleships went through the canal, and many merchant ships made use of it.

Then came a period of slides, and they have been more than periodic. Dredging the channel has been continuous, but so far the second opening has not been announced. The second completion of the canal has not been scheduled.

Meanwhile we have bought another canal route. In case, so our officials have said, the Panama canal is a failure we will have another canal at Nicaragua.

Ollie the Optimist.

There was an Optimist club formed in Washington not long ago, and a few days later Senator Ollie James appeared in an interview on the Maine election which showed that he must have been one of the founders of the organization. After assembling the figures of the election in 1912 and those of 1916 and making comparisons the Kentucky senator concluded:

"It would certainly indicate that the president really won a victory in Maine."

To a man who feels that way about the recent one can only say that he ought to live in a pleasant frame of mind most of the time.

Charlie Commends Champ.

Former Congressman Charlie Landis used to be on the lecture circuit with Champ Clark, and they were warm friends. Tarrying in Washington for a day or two, Landis praised Champ's Maine election comment when the speaker said, "We got licked good and plenty."

"That's just like Champ," remarked Landis—"always candid, blunt and outspoken, with no desire to deceive himself."

Landis represented an Indiana district in congress some years ago, and he feels sure that Indiana is going Republican. Taking Tom Taggart's prediction of 50,000 Democratic majority, Landis says that the Coxes will be Republican.

No More of "Shingle Bill"

Congress will lose "Shingle Bill," as the Democrats called William E. Humphrey of Washington. Humphrey ran for senator, and Polindexter defeated him in the primaries. One thing the primary system does is to have all candidates run at the same time, and a man cannot be a candidate for the senate and, losing out, run for his old place in the house. Humphrey concluded to try for the senate and has lost his seat in the house.

They called him "Shingle Bill," or "Shingles," because he was forever talking about the removal of the tariff on shingles and complaining that great damage had been done to Washington on that account. Strange as it may seem, Polindexter voted for the Underwood tariff bill, and yet he won. It is due to the strong progressive tendencies in Washington. Polindexter was an out and out bull moose four years ago. The house therefore has heard the last of the depressing effect of the tariff removal upon the shingle industry of the state of Washington.

The Record Keeper.

When the future historian wants to know the facts of the present time he will find the speeches of Simeon D. Fess of Ohio of great use. Fess makes it a point to keep the records straight on many of the great questions of the day. No doubt they are a bit partisan, for he is a strong Republican, but his records are official.

Frank Lowden's Friends Pleased.

Frank Lowden served quite a long time in congress and made many friends in Washington, who rejoice over his success in the Illinois primaries. They are hoping that he will be elected governor of that state. Lowden retired from congress voluntarily and for years has been devoting his time to his stock farm, with politics on the side.

BIG YEOMEN DEPUTY MEETING IN BRAINERD

Fifty Field Workers and Many Supreme Officers of the Brotherhood of American Yeomen

TO BE IN CITY SEPT. 26 AND 27

Class Adoption on Sept. 26, Visit at the Rowe Pit Mine at Riverton on Sept. 27

The Minnesota Yeomen Field Workers association of the Brotherhood of American Yeomen will hold their annual convention in Brainerd September 26 and 27. J. H. Murphy is president, W. E. Hatley secretary and Senator Thos. J. Grose treasurer.

Over 50 field workers and some of the supreme officers of the organization including Chief Correspondent W. E. Davy, of Des Moines, Iowa, are expected to be present.

Meetings Sept. 26 will be held at the spacious hall of Homestead No. 602 in the Iron Exchange building and there will be a large class adoption that evening. Homestead 602 has close to 400 members.

On Sept. 27 the visitors will be given a trip over the Cuyuna Iron range and will view the big Row pit mine of the Pittsburgh Steel Co. at Riverton.

Other features of an extensive program have been arranged.

BRAINERD'S ODDEST STORIES TODAY

The reporter was at the First National bank and Cashier Lagerquist showed him a check and asked him to guess the signature. He examined it on all sides and said the name was "McNulty."

"Right you are," said Mr. Lagerquist.

And the reporter puffed up at being able to decipher the handwriting and then collapsed when told it was Art Drogach's blooming name. Art strings out his name in open formation like a bunch of skirmishers. The letters bob around at different angles. The only other name as hard to decipher is that of Julius O. Hage, assistant cashier of the First National bank of Deerwood. Julius confines his name to a bunch of flourishes which revolve about a common center and look like one of those autumn dust storms which whirl about the street.

"Is this the ten cent store?" asked a newcomer at the Woolworth store.

"Yes, madam," said the polite Clarence Van Essen.

"I heard you had some splendid bargains. Will you please show me some automobile tires?"

A city man will go to the country and make more mistakes than the average country man will make in the city. But we want to take off our hat to the man from Klondyke who bought a cigar at R. D. King's cigar counter and stuck it in a Tri-State telephone transmitter and turned the dial to clip off the cigar end.

Brainerd needs a good, live, up-to-date Moses to lead it out of darkness.

Don't forget that Crow Wing county soil yields 50 bushels of corn to the acre in an off year. The Pioneer Press put September in the doubtful column; we suggest the wet column as being more correct.

Anyway, we will be on Black Diamond trail and that suits us fine. Build the road and make her smooth.

And the last drop of joy juice was taken from the reach of the citizens of Brainerd and placed in the city hall. It's hardly fair to put a barrel of temptation in front of the members of the city council at this time when the future is so dark and gloomy.—From Editor C. G. Osterlund's trenchant pen in the Deerwood Times.

THE PALMER-CARLSON WEDDING

County Commissioner John A. Oberg and L. J. Alberts Start for "Diamond Trail" Meeting

Deerwood, Minn., Sept. 21—A pretty home wedding was celebrated at the residence of Mr. and Mrs. Jacob Palmer when their daughter, Miss Adella was married to Harry E. Carlson, Rev. S. H. Swanson officiating. The bride wore white organdie covered with pink rosebud design and her traveling gown was of black tulle silk. The attendants were Mr. and Mrs. Leonard Palmer of Swan River, Mr. Palmer is the bride's brother. The bridegroom is an operator at the Northern Pacific station.

The first floor of the Deerwood hotel is to be remodeled into a garment factory making gloves, children's dresses, etc. Operations will be conducted by the Melberg Manufacturing Co.

Mr. and Mrs. Leonard Palmer of Swan River, were the guests of Mr. and Mrs. Jacob Palmer.

Thomas Keating of Minneapolis, was in town.

Mrs. Everett McQuillin and baby have returned to their home in Milwaukee, Wis.

P. A. Gough was at Brainerd on business.

Mrs. James McCarvill has been very sick.

Mrs. A. W. Miller and Miss Esther Theorin visited in Brainerd Wednesday.

County Commissioner John A. Oberg and L. J. Alberts started for Brainerd to attend the "Black Diamond Trail" meeting, but got a puncture six miles from the county seat.

Weeds are being cut in the streets and gutters cleaned by Street Commissioner Ringhand and his assistants.

The Methodist Ladies Aid society served lunches Friday and their work netted \$36.

A quartet singing at the Methodist church was composed of Mrs. P. M. Hale, Mrs. P. A. Edson, P. K. Wetzel and Supt. Sharp. The accompanist was Mrs. P. A. Gough.

Deerwood had a successful "Market Day" on Sept. 15.

The Swedish Lutheran Mission lasting three days was well attended. Tuesday a free dinner was served by the ladies of the church in the Ladies' Aid hall.

Sloan's Liniment for Neuralgia Aches

The dull throb of neuralgia is quickly relieved by Sloan's Liniment, the universal remedy for pain. Easy to apply; it quickly penetrates without rubbing and soothes the sore muscles. Cleaner and more promptly effective than musky plasters or ointment; does not stain the skin or clog the pores. For stiff muscles, chronic rheumatism, gout, lumbago, sprains and strains it gives quick relief. Sloan's Liniment reduces the pain and inflammation in insect bites, bruises, bumps and other minor injuries to children. Get a bottle today at your druggist, 25c.

Earliest Maps.

The inventor of geographical maps and charts is said to have been the celebrated Anaximander of Miletus, who lived about the year 670 B. C., though, of course, there is more or less uncertainty about the matter. We know that maps existed among the Greeks as early as 400 B. C., but even among so intelligent a people as the Greeks it was impossible, owing to the lack of geographical knowledge, to have more than a vague outline of the world around the great sea. The first tolerably accurate map of the world was not forthcoming until 1570, and that was necessarily only in part, much of the earth being then unknown.

Trip From St. Paul to Brainerd Was Made so Fast That C. A. Gillman Never Got His Goggles On

Earl Dennis, who left Brainerd as chauffeur for H. W. Topping, well known foundryman of the northwest, returned to the city today as the heir of the Topping millions. His career reads like a romance.

Serving his employer well, both Mr. and Mrs. Topping became attached to him. At their California home he was a favorite. Mr. Topping died, and later the widow, by application to court, named Mr. Dennis her adopted son and heir.

Mr. Dennis, accompanied by C. A. Gillman, master car builder of the Northern Pacific railway, motored from St. Paul to Brainerd in Mr. Dennis' 70 horsepower Fiat. Neither would tell how fast they went. However, Mr. Gillman said he had two pairs of goggles in his pockets and he never did get them on his nose and his eyes shed tears the whole way.

Mr. Dennis will visit relatives in the city two weeks and enjoy the fine hunting about Brainerd, before returning to California.

BIG YEOMEN DEPUTY MEETING IN BRAINERD

Fifty Field Workers and Many Supreme Officers of the Brotherhood of American Yeomen

TO BE IN CITY SEPT. 26 AND 27

Class Adoption on Sept. 26, Visit at the Rowe Pit Mine at Riverton on Sept. 27

The Minnesota Yeomen Field Workers association of the Brotherhood of American Yeomen will hold their annual convention in Brainerd September 26 and 27. J. H. Murphy is president, W. E. Hatley secretary and Senator Thos. J. Grose treasurer.

Over 50 field workers and some of the supreme officers of the organization including Chief Correspondent W. E. Davy, of Des Moines, Iowa, are expected to be present.

Meetings Sept. 26 will be held at the spacious hall of Homestead No. 602 in the Iron Exchange building and there will be a large class adoption that evening. Homestead 602 has close to 400 members.

On Sept. 27 the visitors will be given a trip over the Cuyuna iron range and will view the big Rowe pit mine of the Pittsburgh Steel Ore Co. at Riverton.

Other features of an extensive program have been arranged.

BRAINERD'S OLDEST STORIES TODAY

The reporter was at the First National bank and Cashier Lagerquist showed him a check and asked him to guess the signature. He examined it on all sides and said the name was "McNulty."

"Right you are," said Mr. Lagerquist.

And the reporter puffed up at being able to decipher the handwriting and then collapsed when told it was Art Drogseth's blooming name. Art strings out his name in open formation like a bunch of skirmishers. The letters bob around at different angles. The only other name as hard to decipher is that of Julius O. Hage, assistant cashier of the First National bank of Deerwood. Julius confines his name to a bunch of flourishes which revolve about a common center and look like one of these autumn dust storms which whirl about the street.

"Is this the ten cent store?" asked a newcomer at the Woolworth store.

"Yes, madam," said the polite Clarence Van Essen.

"I heard you had some splendid bargains. Will you please show me some automobile tires."

A city man will go to the country and make more mistakes than the average country man will make in the city. But we want to take off our hat to the man from Klondyke who bought a cigar at R. D. King's cigar counter and stuck it in a Tri-State telephone transmitter and turned the dial to clip off the cigar end.

Brainerd needs a good, live, up-to-date Moses to lead it out of darkness.

Don't forget that Crow Wing county soil yields 50 bushels of corn to the acre in an off year.

The Pioneer Press put September in the doubtful column; we suggest the red column as being more correct.

Anyway, we will be on Black Diamond trail and that suits us fine. Build the road and make her smooth.

And the last drop of joy juice was taken from the reach of the citizens of Brainerd and placed in the city hall. It's hardly fair to put a barrel of temptation in front of the members of the city council at this time when the future is so dark and gloomy.—From Editor C. G. Osterlund's trenchant pen in the Deerwood Times.

A Clogged System Must be Cleared
